Milestone Systems

XProtect® Express

Integration made easy

Increase the functionality of your surveillance system with third-party integrations

Scalable, ready-to-use solution

XProtect Express is easy and affordable video management software (VMS) for small, single-location businesses requiring simplified methods of incorporating video capabilities into their existing business operations.

Businesses can integrate third-party applications, such as analytics and access control systems, directly into XProtect Express to create a solution with increased functionality and one common user interface. With simple and efficient video search tools and multiple export options, users can quickly gather evidence when necessary.

| Quick facts	✓ Manages up to 48 cameras ✓ 64-bit Recording Servers ✓ Supports five concurrent users
Easy to use	✓ Quick and easy installation ensures the system is up and running with just a few mouse clicks ✓ Choice of three viewing clients XProtect® Smart Client, XProtect® Web Client and Milestone Mobile available in 26 languages suit users of all skill levels
Endless Possibilities	✓ Endless possibilities to customize XProtect Express with third-party integrations from Milestone's vast network of solution partners ✓ Support for ONVIF™ and PSIA compliant devices ✓ XProtect Express integrates with the widest choice of cameras, providing the freedom to choose hardware according to needs and budget
Future-proof	✓ A one-year Software Upgrade Plan (SUP) is included, providing access to any new product features and cost-efficient upgrades ✓ Easily expand the system with the purchase of additional camera licenses when required ✓ Effortlessly scale up as surveillance requirements grow with Milestone Interconnect™, which offers centralized operation of multiple XProtect Express sites to the premium product, XProtect® Corporate
Stay alert	✓ The Customer Dashboard is a monitoring service that allows resellers to ensure installations are operating at an optimal level (requires a valid SUP).

A perfect solution for small businesses

✓ Seamless integration with access control, video analytics and building management systems
✓ Instead of managing disparate business systems on different interfaces, XProtect Express allows users to merge their existing systems into one platform
✓ A cost-effective solution for users considering future expansions of their installations because the software is highly scalable and cameras can be seamlessly added
✓ Useful features include: video motion detection, pan-tilt-zoom (PTZ) control, system alarms, privacy masking, archive to network storage

Optimizes retail operations

✓ With add-on products like XProtect® Transact and XProtect® Retail, XProtect Express can be optimized for retail environments
